### Welcome to the Ariba Commerce Cloud

Your registration process on the Ariba Commerce Cloud for Supplier Guide Test 4 is now complete.

Your organization's account ID: **ANO1482852875-T**

Your username: [test14-derek@cadence.com](mailto:test14-derek@cadence.com)

As the account administrator for this account, make sure to keep your username and password in a secure place. Do not share this information.

If you registered after receiving an invitation from an Ariba On Demand Sourcing buyer, you can now access and participate in the buyer's sourcing events. The Seller Collaboration Console provides a centralized location for you to manage all your Ariba On Demand Sourcing events and buyer relationships.

Ariba On Demand Sourcing buyers might request that you complete additional profile information as part of their Supplier Profile Questionnaire. When you access customer requested fields for a specific buyer, you will see a pop-up page with that buyer's name; that page contains the buyer's customer requested fields.

You can immediately perform administrative and configuration tasks such as creating users and completing your company profile. If account administration is not part of your job responsibility, you can transfer the administrator role at any time to another person in your organization whose responsibilities are more in line with account administration.

### Good to Know:

Your Ariba Commerce Cloud account provides a central access point to the seller-facing capabilities of the following Ariba solutions:

- Ariba Discovery™ (Leads)
- Ariba Sourcing™ (Proposals)
- Ariba Contract Management™ (Contracts)
- Ariba® Network (Orders & Invoices)

You can start using Ariba Discovery immediately and begin receiving notifications when business opportunities matching your commodities are published.
